On behalf of the Intercollegiate Faculty of Biotechnology of University of Gdańsk & Medical University of Gdańsk (IFB UG & MUG) and companies: KAWA.SKA Sp. z o. o. and AB SCIEX, we would like to invite you to participate in the Mass Spectrometry Workshop organised within the FP7 MOBI4Health Project on 24-27 June 2014 in Gdańsk (venue: IFB UG & MUG building, Kładki 24, 80-822 Gdańsk).

This workshop is the first of a series of hands-on practical courses organised within the project, focusing on application of mass spectrometry in biological sciences. The main subject of the workshop is “Application of mass spectrometry in proteomics and genomics”. The workshop will be divided into two parts, each consisting of 1-day theoretical lecture session and 1-day practical exercises.

Focus of the first part (24-25 June) will be on application of mass spectrometry in proteomics, including practical exercises in the use of AB SCIEX QTRAP™ 6500, MALDI TOF/TOF™ 5800 and TripleTOF® 5600+ Systems.

The second part of the workshop (26-27 June) will be focused mainly on application of mass spectrometry in genomics. The hands-on exercises will be performed with the use of the MassARRAY® system from SEQUENOM.

In order to register, please send the registration form to the following address: alesandra.szwejk@ug.edu.pl before the deadline on April 30th. Please note, that the practical exercises are of a limited number of places which will be allocated on a first register – first serve basis. Your registration is confirmed once you receive an e-mail confirmation.
